

Check Solutions for WEB * TEL * GUARANTEE

Don't forget the millions of people in the U.S. that do NOT qualify or have a credit card!

Electronic check payments account for over 50% of all non-cash payments at the point-of-sale. That is more than \$650 billion annually. Simple stated, when merchants accept checks, they generate more sales. Through ACH Payment Solutions we can help you

Expand your payment solutions to generate a new found profit potential.

Web check – our gateway uses the Federal Reserve's Automated Clearing House (ACH), to process checks received via a web site. ***Benefits include;***

- Single item entry through our secure "Manual Entry" feature for one-time or recurring billing
- We provide web check gateway for your shopping cart

TEL Transactions – check authorizations and funds settlement are processed in real-time. ***Benefits include;***

- Allows you to accept and process checks over the phone
- Increases productivity through streamlined operations
- Reduces lost sales from customers who never mail their check

Guarantee – by guaranteeing checks and providing check guarantee services, ACHPS completely takes the risk out of accepting checks from the customer. ***Benefits include;***

- Payment is made on all returned checks
- Verification feature reduces the number of uncollectible checks at the point-of-sale
- We offer the fastest, most reliable verification on the market
